

The Aquapproach ELITE LINK chlorine dioxide generator is the ultimate water disinfection system. It offers the latest in automation, control, and monitoring that is second to none. The system monitors the water 24/7 and adjusts the pH and chlorine dioxide outputs to maintain ideal water quality conditions. The ELITE LINK can be installed in many different configurations including slip stream and compound loop control. In a compound loop application, the controller receives a signal from both the analyzer and the flow meter. A special algorithm calculates the perfect balance and applies the proper setting to each output. This system is perfect for those who demand unmatched precision for challenging and sensitive applications.

LINK Benefits:

- Tight and precise control
- Sensors for clean and dirty water
- No flow alarm
- Hi/Lo alarm
- Works with variable flow
- Email & SMS alerts
- 3 Outputs:
 - Chlorine Dioxide
 - pH reduce
 - pH increase
- Data logging
- Remote access

SYSTEM SPECS:

- Automatic dosing
- Low operating cost
- Precision metering
- No fumes
- Set point Control
- No stored ClO₂
- No mixing
- Robust and reliable
- Remote monitoring
- Flows up to 650 GPM

CHLORINE DIOXIDE BENEFITS:

- Taste and odor control
- Highly Soluble
- Extended residual activity
- EPA approved for drinking water
- Unaffected by pH
- Effective in dead-legs
- Removes biofilm
- Iron & manganese control

PERFECT FOR:

POULTRY | SWINE | DAIRY | BEEF CATTLE

With Aquapproach, you get more than an equipment and chemical supplier. You gain a resource that is committed to helping you find solutions for the challenges of your operations.
